ROADS REBUILD PRISONERS

The voters of Kentucky in the recent election carried by a tremendous majority the constitutional amendment permitting state prisoners to work outside the prison walls.

Since 1891 Kentucky has forbidden the taking of prisoners outside the prison walls, the law having resulted from abuses which followed their employment by railroads and other private corporations. Two years ago an amendment to remove this ban was carried by a large majority but declared unconstitutional, as the secretary of state failed to advertise it for a sufficient period of time. The supporters of the amendment saw to it that no error occurred this year and there will be no question as to the constitutionality of this amendment. The majority in its favor was much greater than two years ago.

The successful passage of this amendment is largely due to the enthusiastic efforts of Col. R. J. McBryde, editor of the Louisville Times, and Miss Linda Neville, the Kentucky representative of the national committee on prisons and prison labor.

Col. McBryde, speaking at the Kentucky conference of charities and corrections, told of the difficulty experienced in bringing the Kentucky prisoners to their present standards, which, though faulty, are an immense improvement over the prisons of former years. Lobbyists had to be fought, he stated, and a board of prison commissioners which controlled the legislature had to be overthrown to secure the needed reforms. Even yet the prison board is a partisan affair, but taking handicaps into consideration, it has done wonderful work, aided by Wardens Wells and Chilton, two of the best known prison officials in the state.

The amendment will permit Kentucky prisoners to be worked on the public roads. Bills to provide for this road work will be introduced into the coming session of the legislature. The national committee on prisons and prison labor has offered to assist in drafting these bills and to secure the co-operation of the graduate department of highway engineering and the bills drafting bureau at Columbia university.

The development of the convict road work will have the enthusiastic support of R. C. Terrell, the state commissioner of roads, who strongly favored the amendment, bringing before the people of the state the success of other states with convict road work.

Kentucky badly needs roads and also better employment for her prisoners, at present leased to prison contractors at 75 cents per day. The first step has been taken in the passage of the amendment, and the national committee on prisons and prison labor hopes by this time next year to see Kentucky prisoners building roads and the roads rebuilding the prisoners.

STATE EDUCATIONAL NOTES

Of the dozen or more reports made from counties concerning the organization of moonlight schools, said reports to bear date of December 1, Latimer and Pittsburg counties lead so far, both having done excellent work. While Pittsburg leads in the number of schools, having twenty in operation, Latimer, with 14 schools has an enrollment of 318, while Pittsburg, with its 29 schools has an enrollment of 207. Of the adult attendance Pittsburg county has 260 and Latimer has 280. Both Supt. T. T. Lewis of Pittsburg and Supt. C. E. Fair of Latimer are to be congratulated upon their excellent showing. Both of these superintendents promise more moonlight school organizations this month. Several other counties, which have not yet reported, may make a better showing than either of these. It is known that Cherokee and Grady counties have a number of schools organized with fine attendance. The full report will be made up as soon as all are in.

The Northeastern Educational Association will convene in Muskogee on the 30th of December and will hold its session for two days. A very fine program has been arranged and it is confidently believed by those in charge that the attendance will reach 2,000. The strong card of the association will be Dr. Calvin N. Kendall, state commissioner of education of New Jersey, who is regarded as one of the nation's greatest educators. The chairman of the local committee is Supt. Edwin S. Monroe and any information as to rooms, board, or any other matter relating to the association will be cheerfully given by him. Muskogee is making great efforts looking to the entertainment of the teachers and all who attend may expect both a profitable and pleasant meeting.

CONGRESS MET AT NOON TODAY

(CONTINUED FROM PAGE 1)

Just three years ago only to be returned to the lower house over democratic opponents last fall, formed an interesting group. Joseph G. Cannon, former speaker of the house, and now well on toward 80 years of age, stood out prominently. If he finishes his present term he will have served forty years in congress, eight years as speaker. Other republicans who remained at home during the last congress to reappear today were: Nicholas Longworth of Ohio, William B. McKinley, W. A. Rodenberg, William W. Wilson, George E. Foss, John A. Sterling and Charles E. Fuller of Illinois; Ebenezer Hill of Connecticut; Cyrus A. Sulloway of New Hampshire and Benjamin K. Focht of Pennsylvania. Meyer London, the first socialist elected to congress from New York, attracted much attention.

Senate proceedings always are quieter than those in the house. As striking as the return of old faces to the house was the absence of familiar countenances in the senate. Senators Root of New York, Burton of Ohio, Bristow of Kansas; Crawford of South Dakota; Perkins of California; and Stephenson of Wisconsin, were missing from the republican side. Democratic ranks missed Thornton of Louisiana; White of Alabama, and Camden of Kentucky. The first business was swearing in the new senators. Most of them already are well known in political circles.

Among the republicans came James C. Wadsworth, of New York, successor to Root, who attracted attention as the youthful speaker of the New York assembly; Charles Curtis of Kansas, who succeeds Bristow, and Warren G. Harding of Ohio, who succeeds Burton.

Oscar W. Underwood, of Alabama, former majority leader of the house,

A Dog Race.

J. D. Moorehead, who accepted the challenge of Uncle Sam Tallaferra of Lone Grove for a greyhound race, is of the opinion that he has the fastest trio of dogs in the state. When the race was held, four jack rabbits were jumped and of the four the Moorehead dogs caught every one. Mr. Tallaferra wants to see the race run again, and it is probable that on Christmas day the dogs will be matched for a second race.

SHARP TALKS HOTEL

Live Oil Man Has \$80,000 Which He Will Invest in Hotel for Ardmore

J. R. Sharp, of Dallas, who spent Saturday in the fields, returned here Saturday night and left Sunday morning for his home.

Mr. Sharp expects to be back in the field during the week. While here he stated that if Ardmore would subscribe \$70,000 toward the building of a hotel, that he would take \$80,000 of the stock and would build a hotel costing \$150,000.

Mr. Sharp and Mr. Cruce own a lot on West Main street on the corner of C, known as the old skating rink site, and they would build the hotel on that site if they build at all. Each one agreed to take the value of the lot in stock at a reasonable price for the property. Mr. Sharp was one of the original stock holders in the Hotel Tulsa and on account of the company being involved in debt, the hotel sold and every stockholder lost all he had paid into it.

Mr. Sharp will not take any interest in an Ardmore hotel unless it begins business unincumbered.

ZINC NEAR HOMER

Analysis Made Shows Deposit to be Rich. Preparing for Development.

Prospects are good that the zinc fields of Carter county will be given a test within a short time. In the locality of Homer some rich deposits are said to exist and one of the owners of the zinc deposits is Max Westheimer of this city.

Mr. Westheimer has sent samples of the mineral to the state geological department. The analysis shows 20.8 per cent zinc and the geological department states that if the sample sent to them is a fair representation of the ore that it is a paying proposition.

Mr. Westheimer who is largely interested in oil, is of the opinion that he will develop his mineral lands.

Zinc is now selling higher than it ever sold for before and there is every reason to believe that Carter and Murray counties along the Arbuckle mountains can produce a vast amount of this mineral. Two concentrating plants are now in operation in Murray county and some of the mineral has been placed on the market and it has been demonstrated that the mines can be worked at a profit.

CLASSIFIED ADS

No Advertisement for this Column Amounting to Less Than One Dollar will be Accepted Unless the Cash Accompanies the Ad. Ads of that Amount to One Dollar will be Charged to Any Responsible Person.

FOR RENT

FOR RENT—Rooms for light housekeeping. Apply 321 South Mill St. Phone 562. 30tf
